Investment Projects

1- Project of A vegetable Oil Refinery of a Capacity 1000 Ton/Day of Crude Oil Including:

- *Reception of crud oil: by piping from the importation port or local product trucks.
- *Storage of crude oils.
- *oil refinery
- *Consumption.
- *Storage refined oils.
- *Expedition.
- * guard room main entry.
- * weighbridge premise capacity of 100 ton.
- * 2 truck weighbridges.
- * crude oils and fatty acids tanks storage.
- * a refinery with a capacity of 1000 t/d including:
 - Neutralization, -cleaning,
 - depolarization. -deodorization.
- * 6 tanks for refined oil.
- *1 conditioning store In bottles of like, 5 liters and in barrels of 200 liters including.
 - 1 complete line of blowing of bottles 1 liter
 - 1 complete line of blowing of bottles 5 liters.
 - 1 complete line of casking .
- *1 quay for pallets loading on trucks.
- *1 quay for loading pallets in wagons.
- *1 loading station of refined oils in bulk for trucks.
- *1 fuel tank.
- *1 water tank storage with water filters.
- *1 water treatment station for boiler.
- * boilers for steam generation.
- *1 compressed air production unit.
- *1 water cooling tower.
- *1 high voltage station.
- *1 transforming station high voltage/low voltage.
- * low tension general transforming.
- * Emergency generating set.
- *Electric room-main control rooms.
- *wastewaters treatment station.
- *gas network -Gas pressure regulator station.
- *pumping station -bore hole.

- *fire network.
- *firemen room.
- *social building.
- *technical room.
- *offices administration.
- *cars parking.
- *Bicycles shelters.
- *sewing ,various network.
- *station for rain waters treatment.
- *Dangerous products storage.
- *fence and gates.
- *one year guaranty of operating and maintaining and training for ten engineers in manufactures factories.
- *studies for facture expansion not less 100%.
- *RESIDENTIAL AREA employers not less than 50 houses.
- *workshop.
- *laboratory.
- *spare parts store including with one year spare parts.
- *any additional studies, drawing,buldings....etc. may the projects need a curding to the designer

***General idea about the project.**

- 1- the project will support the national economy through importing raw materials only or using from local production of local agricultural raw materials which its cost much lesser than the final importing cost of necessary country need of oil .
- 2- The approximate area of the project is 50 donums.
- 3- Location is near in AL-Basra port.
- 4- Supporting the national economy by getting benefits from project incomes after possessing it by the company .
- 5- (turn key project)
- 6- operating Iraqi workers.(increases employment)
- 7- the estimated value of the project is about (75) million \$
- 8- the determined period of regaining the capital is (5 - 15) years
